## 1. INTRODUCTION

Human Resource (HR) policy is created for SHREE VENKATESHWARA HI-TECH ENGINEERING COLLEGE (Autonomous). This HR policy replaces all the other policies, procedures, benefit statements, memoranda and other established written or oral practice.

The information in this HR policy is important to all of our Employees and they should read the manual and duly sign the report. Whenever there is any clarification on college policies and benefits, the HR policy should be referred.

HR policy is neither a law book nor a catalogue of personnel policies. It presents a summary of some of the more important policies.

Doubts, if any can be clarified with the Administrative officer.

Circumstances will obviously require that the policies, practices and benefits described in the HR policy change from time to time. The college reserves the right to amend, modify, rescind, delete, supplement or add to the provisions of this HR policy as it deems appropriate from time to time in its sole and absolute discretion. However, no amendment or modification of the "Terms of Employment" provisions of this HR policy shall be effective unless made in writing, and signed by the Chairman/Secretary of the college. The college will attempt to provide employees with notification of any other changes as they occur.

Examples of sexual harassment include (a) an employee being fired or denied a job or an employment benefit because the Employee refused to grant sexual favours or because he or she complained about the harassment; (b) an Employee reasonably quitting his or her job to escape from harassment; or (c) an Employee being exposed to a hostile work environment.

The College will take all reasonable steps to prevent harassment from occurring and will take immediate and appropriate action when the College knows that unlawful harassment has occurred.

**SHREE VENKATESHWARA HI-TECH ENGINEERING COLLEGE, GOBI  
(Autonomous)**

An employees has been harassed by anyone, or if it is believed that another staff member has been harassed, it is the duty to promptly report the facts of the incident or incidents, and names of the individuals involved, to the Top Management.

The matter will be immediately and thoroughly investigated, and confidentiality will be maintained to the extent possible. After reviewing the evidence, a determination will be made concerning whether reasonable grounds exist to believe that harassment has occurred.

It is the obligation of all Employees to cooperate fully in the investigation process. The College considers any harassing conduct to be a major offense which can result in disciplinary action for the offender, up to and including discharge.

The College will take action to deter any future harassment. In addition, disciplinary action will be taken against any Employees who attempts to discourage or prevent other Employees from bringing harassment to the attention of management. The persons involved will be advised of the determination if appropriate.

The College wants to assure all of its Employees/students that measures will be undertaken to protect those who complain about harassment from any further acts of harassment, coercion or intimidation, and from retaliation due to their reporting an incident or participating in an investigation or proceeding concerning the alleged harassment.

### 17. EMPLOYMENT DISCRIMINATION POLICY

The College gives equal opportunity to employer and makes employment decisions on the basis of competency. The college has the best available people in every job. Therefore, the College does not discriminate, and does not permit its Employees to discriminate against other Employees or applicants because of caste, color, religion, sex, sexual orientation, gender identity or expression, pregnancy, marital status, national origin, citizenship, veteran status, ancestry, age, physical or mental disability (an impairment that limits a major life activity), medical condition, genetic characteristic, or any other consideration made unlawful by applicable laws. Equal employment opportunity will be extended to all persons in all aspects of the employer-Employees relationship, including recruitment, hiring, upgrading, training, promotion, transfer, discipline, layoff, recall and termination.

If any staff member has been subjected to any form of unlawful discrimination it is the duty of every employee promptly report the facts of the incident or incidents, names of the individuals involved, and the names of any witnesses to the Management.

The matter will be immediately and thoroughly investigated, and confidentiality will be maintained to the extent possible. After reviewing the evidence, a determination will be made concerning whether reasonable grounds exist to believe that discrimination has occurred. It is the obligation of all Employees to cooperate fully in the investigation process. The College considers any conduct based on unlawful discrimination to be a major offense which can result in disciplinary action for the offender, up to and including discharge.

The College will take action to deter any future discrimination. In addition, disciplinary action will be taken against any Employee who attempts to discourage or prevent other Employees from bringing discrimination to the attention of management. The persons involved will be advised of the determination if appropriate.

The College wants to assure all of its Employees that measures will be undertaken to protect those who complain about discrimination from any further acts of discrimination, compulsion or threats, and from retaliation due to their reporting an incident or participating in an investigation or proceeding concerning the alleged discrimination.

### **18. REASONABLE ACCOMMODATION FOR DISABILITIES AND PREGNANCY**

**Disability Accommodation:** The College will make reasonable accommodations for the known physical or mental disabilities of an otherwise qualified applicant for employment or Employees/students, unless undue hardship would result. Any applicant or staff member or student who requires accommodation in order to perform the essential functions of a job should contact the AO/Manager. The applicant or Employees/students should advise the College what accommodations, he or she believes are needed in order to perform the job. Together with the applicant or Employees/students, the College will engage in an interactive process to determine effective, reasonable accommodations, if any. If such an accommodation is possible and will not impose undue hardship upon the College, the College will make the accommodation

The College also reserves its right to require an employee to undergo a fitness for duty medical examination, at the College's expense, if the College believes or

**SHREE VENKATESHWARA HI-TECH ENGINEERING COLLEGE, GOBI  
(Autonomous)**

suspects that the Employees may not be able to perform the essential duties of the job without risk of harm to himself or herself or others. In such an instance, the College will advise the Employees, in writing, of the need for the examination. Depending on the situation, the College reserves the right to suspend employment pending the results of the examination.

**Pregnancy Accommodation:** A pregnant Employee may request for a reasonable accommodation based on her condition upon presentation of a doctor's written certification attesting that the accommodation request is upon the doctor's advice. Such an accommodation may include, but is not limited to, a transfer to a less strenuous or hazardous position. If such a transfer can be reasonably accommodated, a pregnant staff member will be transferred for the duration of her pregnancy. However, the College will not undertake to create additional employment that the College would not otherwise have created to meet its own business needs.

The College will not discharge any Employees, transfer any Employees with more seniority than the pregnant Employee, or promote any Employees who are not qualified to perform the job. Upon transfer, a staff member will receive the salary and benefits, which are regularly provided to Employees in the position to which the Employee has transferred.

### **19. OFF-DUTY EMPLOYEES**

### Utilization of the Project Lab

- The laboratory is opened to the students from 9.00 a.m. to 4.25 p.m. If the students are willing to work on their projects, even after the working hours they are allowed to work along with a faculty member / lab technician. Every System is equipped with related project works.
- Internet facilities have been provided for all systems.
- Open-source software is useful for the faculty who are pursuing their research projects and also useful for students in their projects
- Apart from project lab, all the labs in the department are also used for doing projects and based on the student's requirement and laboratory free slots.

## Class Committee Meeting (CCM-I) – Minutes of Meeting

Year/Semester	:		Date & Time	:	
Academic Year	:		Venue	:	

### OBJECTIVE

- It is like the 'Quality Circle' with the overall goal of improving the Teaching-Learning process.
- Informing the student representatives the academic schedule including the dates of assessments and the syllabus coverage for each assessment.
- Informing the student representatives the details of Regulations regarding weight age used for each assessment. In the case of practical courses (laboratory / drawing / project work / seminar etc.) the breakup of marks for each experiment / exercise / module of work should be clearly discussed in the class committee meeting and informed to the students.

### POINTS DISCUSSED

- 1) Regulation
- 2) Duration of the program / Semester
- 3) Academic schedule
- 4) Internal assessment methods
  - a) Theory Courses
  - b) Laboratory Courses
  - c) Theory Courses with Laboratory component
- 5) Syllabus coverage for each assessment
- 6) Internal assessment analysis and identifying the slow-learners
- 7) Opinions and suggestions

**1) Regulation**

Regulation 2021 is applicable to the students admitted to B.E/B.Tech. Programmes at all Engineering Colleges affiliated to Anna University, Chennai (other than Autonomous Colleges) from the academic year 2021-2022 onwards.

**2) Duration of the program / Semester**

- A student is ordinarily expected to complete the B.E. / B.Tech. Programme in 8 semesters (for HSC students) and six semesters (for Lateral Entry students).
- Each semester shall normally consist of 75 working days or 540 periods of 50 minutes each.

**3) Academic schedule**

- Informing the student representatives, the academic schedule including the dates of assessments and the syllabus coverage for each assessment.

**4) Internal assessment methods**

**Theory Courses**

Two tests each carrying 100 marks shall be conducted during the semester by the Department / College concerned. The total marks obtained in all tests put together out of 200, shall be proportionately reduced for 20 marks and rounded to the nearest integer (This also implies equal weightage to all the three tests).

**Laboratory Courses**

The maximum marks for Internal Assessment shall be 20 in case of practical courses. Every practical exercise / experiment shall be evaluated based on conduct of experiment / exercise and records maintained. There shall be at least one test. The criterion for arriving at the Internal Assessment marks of 20 is as follows: 75 marks shall be awarded for successful completion of all the prescribed experiments done in the Laboratory and 25 marks for the test. The total mark shall be reduced to 20 and rounded to the nearest integer.

**Theory Courses with Laboratory Component**

If there is a theory course with Laboratory component, there shall be three tests: the first two tests (each 100 marks) will be from theory portions and the third test (maximum mark 100) will be for laboratory component. The sum of marks of first two tests shall be reduced to 60 marks and the third test mark shall be reduced to 40 marks. The sum of these 100 marks may then be arrived at for 20 and rounded to the nearest integer.

**5) Syllabus coverage for each assessment**

Every teacher imparts instruction as per the number of periods specified in the syllabus and that the teacher teaches the full content of the specified syllabus for the course being taught

**6) Internal assessment analysis and identifying the slow-learners**

- Analyzing the performance of the students of the class after each test and finding the ways and means of solving problems if any.

**OBJECTIVE**

- It is like the 'Quality Circle' with the overall goal of improving the Teaching-Learning process.
- Informing the student representatives the academic schedule including the dates of assessments and the syllabus coverage for each assessment.
- Informing the student representatives the details of Regulations regarding weight age used for each assessment. In the case of practical courses (laboratory / drawing / project work / seminar etc.) the breakup of marks for each experiment / exercise / module of work should be clearly discussed in the class committee meeting and informed to the students.

**POINTS DISCUSSED**

- 8) Class room and laboratories – problem solving
- 9) Theory and Practical courses -syllabus coverage
- 10) Internal performance analysis – Weak Students Identification – Action Taken
- 11) Remedial Coaching Class – discussion - Schedule
- 12) Attendance particulars-Lack of Attendance

**PROGRAM EDUCATIONAL OBJECTIVES (PEOs)**

PROGRAMME OUTCOMES (POS)

Engineering Graduates will be able to:

PO1	<b>Engineering knowledge:</b> Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
PO2	<b>Problem analysis:</b> Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO3	<b>Design/ Development of solutions:</b> Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO4	<b>Conduct investigations of complex problems:</b> Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
PO5	<b>Modern tool usage:</b> Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
PO6	<b>The engineer and society:</b> Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
PO7	<b>Environment and sustainability:</b> Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
PO8	<b>Ethics:</b> Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
PO9	<b>Individual and team work:</b> Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
PO10	<b>Communication:</b> Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
PO11	<b>Project management and finance:</b> Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
PO12	<b>Life-long learning:</b> Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

**EVALUATION COMPONENTS:**

**THEORY COURSES**

Two assessments each carrying 100 marks shall be conducted during the semester by the Department / College concerned. The total marks obtained in all assessments put together out of 200, shall be proportionately reduced for 40 marks and rounded to the nearest integer (This also implies equal weightage to the two assessments)

Assessment I (100 Marks)		Assessment II (100 Marks)		Total Internal Assessment
Individual Assignment / Case Study / Seminar / Mini Project	Written Test	Individual Assignment / Case Study / Seminar / Mini Project	Written Test	
40	60	40	60	200*

\*The weighted average shall be converted into 40 marks for internal Assessment.

**THEORY COURSES WITH LABORATORY COMPONENT**

If there is a theory course with laboratory component, there shall be two assessments: the first assessment (maximum mark is 100) will be similar to assessment of theory course and the second assessment (maximum mark is 100) will be similar to assessment of laboratory course respectively. The weightage of first assessment shall be 40 % and the second assessment be 60 %. The weighted average of these two assessments shall be converted into 50 marks and rounded to the nearest integer.

Assessment I (40% Weightage) (Theory Component)		Assessment II (60% Weightage) (Laboratory Component)		Total Internal Assessment
Individual Assignment/ Case Study / Seminar/ Mini Project	Written Test	Evaluation of Laboratory Observation, Record	Written Test	
40	60	75	25	200*

\*The weighted average shall be converted into 50 marks for internal Assessment.

**LABORATORY COURSES**

The maximum marks for Internal Assessment shall be 60 marks in case of practical courses. Every practical exercise / experiment shall be evaluated based on conduct of experiment / exercise and records to be maintained. There shall be at least one test. The criteria for arriving at the Internal Assessment marks of 60 are as follows: 75 marks shall be awarded for successful completion of all the prescribed experiments done in the Laboratory and 25 marks for the test. The total mark shall be converted into a maximum of 60 marks and rounded to the nearest integer.

Internal Assessment (100 Marks)*	
Evaluation of Laboratory Observation, Record	Test
75	25

\* Internal assessment marks shall be converted into 60 marks

### PROJECT WORK

The viva-voce examination shall carry 40 marks. Marks are awarded to each student of the project group is based on the individual performance in the viva-voce examination.
